

OUR FAMILY

Chris & Martta Harlow

A note from Chris

We are a very active family of five with varied interests including golf, singing, art, soccer and regular trips to Sunriver. Golf has been a part of my blood since childhood, as it was an important part of my father’s life. I played through college and continue to play in tournaments and recreationally. Martta has discovered her love of golf recently, which will give us something we can love to do together well into our retirement years.

MEET OUR CHILDREN

Gracie

Gracie is our oldest and is most into softball and singing, but she really likes to try everything. She is very talented with such a good heart. She is one of those people that you instantly like. Very fun, caring and enjoys everyone she meets.

Faith

Faith is our middle child and really likes art and animals – particularly kittens! She never ceases to amaze us and is no doubt the sweetest one of the bunch. It's probably because of all the candy she likes to eat!

Christian

Christian is our youngest and only boy of the bunch. His two loves are soccer and golf and really excels at both of them. He plays in a number of golf tournaments each year, and Chris is lucky enough to be his caddy. He is a little on the shy side, but not when he's playing these sports!

We are doing our best ...

to raise these awesome kids in a loving environment that helps them thrive to become all they were designed to be. It's an honor to be their parents, and we are happy we get to help them on their own journey of becoming young adults!
